INDICATORS AND THEIR MEANINGS

The five indicators are defined in MC 2010-148 are as follows:

Ordinances Issued— MC 2010-148 called for LGUs to enact an ordinance, as may be necessary or if justified, totally prohibiting the manufacture, sale, distribution and use of any firecracker and pyrotechnic devices, if there is reasonable ground to believe that radical groups may take advantage of the holiday season's merriment for their lawless designs, and promote an alternative revelry.

Designated Zones— The same MC called for LGUs to establish "Fire and Pyrotechnic Zones" in their localities, to serve as designated areas where people may sell firecrackers and pyrotechnic devices; and to designate an area where people may use said firecrackers and pyrotechnic devices.

Information Campaigns— LGUs are also asked to take the lead in the conduct of an information campaign on the dangers of these devices;

Local Peace and Order Councils— LGUs are likewise asked to convene their Peace and Order Councils or Committees in order to incorporate in the Public Safety Plans a specific project aimed at protecting their constituents.
