DASHBOARD ON BARANGAY GOVERNANCE

Dashboard on Barangay Governance, similar to an automobile dashboard where driver could monitor at a glance the vehicle's major functions shall provide a snapshot of KPI (key performance indicators) related to good governance. It shall provide cars as signs about barangay governance, telling us whether we are in the right track or not; and those signs shall prompt us, whether to refine or refocus our interventions accordingly.

Summaries of KPIs are grouped by thematic areas; 1) **Presence of basic facilities** 2) **Institutional Capacity**, measured in terms of the presence of barangay-based institutions, and 3) **Adherence to Accountability and Transparency**.

Visual presentation is presented similar to 'gauge' for simplicity and minimum distractions.
