

LGU Scorecard on Health - DCF For Component Cities and Municipalities

LGU Name: (LUU - LOPETO) Province Name: (DINAGAT ISLANDS)

Region: (XIII) Profile Year: 2012

Population data to be used: 2010 Census Data Projected to 2012

The LGU Scorecard on Health is an annual survey being conducted by the Department of Health for purpose of identifying reform interventions on health services provided by the LGUs. The indicators are stratified based on the strategic thrusts and strategic instruments of Universal Health Care (Kalusugang Pangkalahatan).

Instructions:

- Please fill-up the form by putting the required data for numerator, denominator and computed value.
- Encircle "Not Applicable" if the indicator is not applicable to the component city or municipality, or "No Data" if applicable but data is not available.
- Refer to the given formula per indicator to derive the computed value.
- Fill-up the remarks portion of each indicator when the computed value exceeds the acceptable value.
- Only the computed value will be inputted on the online DCF, however, numerator and denominator data still needs to be supplied in this manual DCF to facilitate data review.

I. Financial Risk Protection

Governance for Health

A. Increase LGU Investment for Health

1) Percentage of Component City/Municipal Budget Allocated to Health

A. Total component city/
municipal budget allocated to
health, nutrition & environment

3,413,060

x 100 =

6 %

No
Data

B. Total component city/municipal
budget →

55,114,821.47

Note:

- Formula: $A/B \times 100$
- Component city/municipal budget - PS, MOOE, and CO
- Target 2016: 15%
- Acceptable computed value: between 5% and 50%

Remarks: _____

2) Percentage of MOOE Allocated to Health

A. Total MOOE in component city/ municipal health budget →	$\frac{1,012,000}{3,413,060}$	x 100 =	30 %	No Data
B. Component city/municipal budget allocated to health services →				

Note:

- Formula: $A/B \times 100$
- MOOE for health from the regular funds (IRA + locally-generated sources)
- Target 2016: 45%
- Acceptable computed value: between 5% and 80%

Remarks: _____

3) Percentage of Component City/Municipal Health Expenditures

A. Total component city/municipal expenditures on health, nutrition & environment →	$\frac{\text{[]}}{3,413,060}$	x 100 =	%	No Data
B. Total component city/municipal budget allocated to health, nutrition & environment →				

Note:

- Formula: $A/B \times 100$
- Target 2016: 100%
- Acceptable computed value: between 75% and 100%

Remarks: _____

Qm

II. Improved Access to Quality Hospitals and Health Care Facilities

Human Resources for Health

Adequate Human Resource for Health

4) Rural Health Physician to Population Ratio

A. Total population →	10,904	=	1 Rural Health Physician : 10,904 Population	No Data	No Rural Health Physician
B. No. of rural health physician →	1				

Note:

- Formula: A/B
- Target 2016: 1 rural health physician:20,000 population
- Acceptable computed value: between 1 rural health physician: 1,000 population and 1 rural health physician: 75,000 population

Remarks: _____

5) Rural Health Midwife to Population Ratio

A. Total population →	10,904	=	1 Rural Health Midwife : 2181 Population	No Data	No Rural Health Midwife
B. No. of rural health midwife →	5				

Note:

- Formula: A/B
- Target 2016: 1 rural health midwife : 5,000 population
- Acceptable computed value: between 1 rural health midwife: 500 population and 1 rural health midwife: 75,000 population

Remarks: _____

6) Rural Health Nurse to Population Ratio

A. Total population →	10904	=	1 Rural Health Nurse : 10,904 Population	No Data	No Rural Health Nurse
B. No. of rural health nurse →	1				

Note:

- **Formula:** A/B
- **Target 2016:** 1 rural health nurse : 20,000 population
- **Acceptable computed value:** between 1 rural health nurse: 1,000 population and 1 rural health nurse: 75,000 population

Remarks: _____

III. Attainment of Health-Related MDGs

Policy, Standards and Regulations

A. Disease Free Zone Initiatives

7) Percentage Coverage of Target Population in Endemic Area(s) with Mass Treatment for Filariasis

A. No. of persons given mass drug administration →	<input type="text" value="0"/>	x 100 =	<input type="text" value="0 %"/>	<input type="text" value="No Data"/>	<input type="text" value="Not Applicable (Non-endemic)"/>
B. Total population (2 years old & above) in *endemic area →	<input type="text" value="0"/>				

Notes:

- **Formula:** A/B x 100
- **Endemic area*** is a province with a prevalence of 1% or higher. All municipalities or component cities under the endemic province shall report mass treatment.
- **Reference:** FHSIS
- **NOH Target 2016:** 85%
- **Acceptable computed value:** between 40% and 100%

Remarks: _____

8.) Percentage Coverage of Target Population in Endemic Area(s) with Mass Treatment for Schistosomiasis

A. No. of persons given mass treatment →	<input type="text" value="0"/>	x 100 =	<input type="text" value="0 %"/>	<input type="text" value="No Data"/>	<input type="text" value="Not Applicable (Non-endemic)"/>
B. Total population (5 years old and above) in *endemic area →	<input type="text" value="0"/>				

Notes:

- Formula: $A/B \times 100$
- Endemic area is a barangay, component city or municipality with a prevalence of 10% or higher.
- Reference: FHSIS
- NOH Target 2016: 85%
- Acceptable computed value: between 40% and 100%

Remarks: _____

9.) Annual Parasite Incidence for Malaria

A. No. of Malaria cases in the population →	<input type="text" value="0"/>	x 1000 =	<input type="text" value="0%"/> Per 1000 population	<input type="text" value="No Data"/>	<input type="text" value="Not Applicable (Non-endemic)"/>
B. Total population in *endemic area →	<input type="text" value="0"/>				

Notes:

- Formula: $A/B \times 1000$
- Endemic area may be a barangay, municipality or component city. Thus, the population of the implicated barangay, municipality or component city should be used as denominator.
- Reference: FHSIS
- NOH Target 2016: $< 0.8/1000$
- Acceptable computed value: between 0 and 20 per 1,000 population

Remarks: _____

B. Intensified Disease Prevention and Control

10.) TB Case Detection Rate (All Forms of TB*)

A. No. of all forms of TB cases identified →	<input type="text" value="37"/>	x 100 =	<input type="text" value="264%"/>	<input type="text" value="No Data"/>
B. Estimated no. of all forms of TB cases for the year* →	<input type="text" value="14"/>			

Notes:

- Formula: $A/B \times 100$
- "All Forms of TB" refers to new smear positive, new smear negative, relapse, and extra pulmonary TB

- To compute for "Estimated number of all forms of TB cases for the year": Total population x 0.00275
- Reference: Quarterly Reports; NTP Registry
- NOH Target 2016: 85%
- Acceptable computed value: between 30% and 100%

Remarks: _____

11.) TB Cure Rate

A. No. of new smear-positive pulmonary TB cases registered in a specified period that were cured →	32	x 100 =	86 %	No Data
B. Total no. of new smear-positive pulmonary TB cases registered in the same period →	37			

Notes:

- Formula: A/B x 100
- Reference: Quarterly Reports; NTP Registry
- NOH Target 2016: 90%
- Acceptable computed value: between 30% and 100%

Remarks: _____

C. Child Health

12) Percentage of Fully Immunized Child

A. No. of infants given BCG, OPV3, DPT3/Penta 3, Hep B3 and Measles vaccine before 12 months of age →	206	x 100 =	70 %	No Data
B. Total population x 2.7% →	294.408			

Notes:

- Formula: A/B x 100
- NOH Target 2016: 95%
- Acceptable computed value: between 30% and 100%

Remarks: _____

13) Percentage of Infants (0 - 6 months old) Exclusively Breastfed

A. No. of infants (0 - 6 months old) exclusively breastfed →	147			
B. Total population x 2.7% →	294.408	x 100 =	50 %	No Data

Notes:

- Formula: $A/B \times 100$
- NOH Target 2016: 54.75%
- Acceptable computed value: between 5% and 100%

Remarks: _____

D. Maternal Health

14) Percentage of Facility-based Deliveries*

Number of mothers giving birth at:

A1. RHU and BHS →	93
A2. District/Municipal/ Component City Hospital (provincial, municipal or city- managed) →	14
B1. Home →	28
B2. Other places* →	0

Percentage of Facility-based Deliveries

A. Total number of facility-based deliveries (A1+A2) →	107			
B. Total number of maternal deliveries in the LGU (A1+A2+B1+B2) →	135	x 100 =	79 %	No Data

Notes:

- Formula: $A/B \times 100$
- Must be in a health facility with birthing capacity*
- "Other places" is defined as non-health facility places like vehicles (tricycle, taxi, etc.) and outside of the dwelling place

- Reference: Local civil registry as reported in FHSIS
- NOH Target 2016: 90 %
- Acceptable computed value: between 5% and 100%

Remarks: _____

15) Percentage of Deliveries Attended by Skilled Health Professionals*

A. Total number of deliveries attended by skilled health professionals →	106	x 100 =	78 %	No Data
B. Total number of maternal deliveries in the LGU (same as indicator # 14 denominator) →	135			

Notes:

- Formula: A/B x 100
- *Skilled health professionals - are medical doctors, nurses and midwives
- Reference: FHSIS
- NOH Target 2016: 90 %
- Acceptable computed value: between 5% and 100%

Remarks: _____

16) Contraceptive Prevalence Rate for Modern Family Planning Methods*

A. No. of women of reproductive age who are using (or whose partner is using) modern family planning method →	426	x 100 =	31.77% 48%	No Data
B. No. of women of reproductive age (12.3% of total population) →	88,650 1,341			

Notes:

- Formula: A/B x 100
- Modern family planning methods*: pills, IUD, condom, injectables, NFP(cervical mucus, basal body temperature, symptothermal, standard days method/cycle beads, lactation amenorrhea method) , bilateral tubal ligation, and vasectomy.
- NOH Target 2016: 65%
- Acceptable computed value: between 0% and 100%

Remarks: _____

JEM

17) Percentage of Functional Community Health Teams

A. No. of functional Community Health Teams in the LGU* →	58		
B. No. of targeted Community Health Teams in CCT NHTS - PR* areas in the LGU →	754	x 100 =	8 %
			No Data

Notes:

- Formula: $A/B \times 100$
- *Please refer to the attached Consolidation Template (see page 12)
- Conditional Cash Transfer National Household Targeting System for Poverty Reduction (CCT NHTS - PR)
- NOH Target 2016: 100%
- Acceptable computed value: between 0% and 100%

Remarks: _____

E. Environmental Health

18) Percentage of Households with Access to Safe Water

A. Total no. of households with access to safe water (Level I, II, III) →	1974		
B. Total no. of households →	1992	x 100 =	97 %
			No Data

Notes:

- Formula: $A/B \times 100$
- Reference: FHSIS
- NOH Target 2016: 88%
- Acceptable computed value: between 20% and 100%

Remarks: _____

19) Percentage of Households with Sanitary Toilet Facilities

$$\frac{\text{A. Total no. of households with sanitary toilet facilities} \rightarrow \boxed{1558}}{\text{B. Total no. of households} \rightarrow \boxed{1961}} \times 100 = \boxed{79 \%} \quad \boxed{\text{No Data}}$$

Notes:

- *Formula: A/B x 100*
- *Reference: FHSIS*
- *NOH Target 2016: 90%*
- *Acceptable computed value: between 20% and 100%*

Remarks: _____

Consolidation Template for Indicator No.17
Percentage of Functional Community Health Teams

LGU Name: (_____) Province Name: (_____) Region: (_____) Profile Year: 2012						
Instructions: 1. Put a (✓) check mark across each criteria on the functionality of a Community Health Team (CHT) that is met by each CHT in the LGU. 2. Count the total number of functional CHTs (those which have met all the criteria listed below) and supply it as numerator of Indicator No. 17 "Percentage of Functional Community Health Teams".						
Criteria of a Functional Community Health Team	CHT 1 (example)	CHT 2 (example)	CHT 3 (example)	CHT 4 (example)	CHT 5 (example)	...
1. Organized and trained	✓	✓	✓	✓		
2. Deployed in CCT-NHTS areas in the LGU	✓	✓	✓	✓	✓	
3. Visited the CCT-NHTS families at least twice in the reporting year	✓		✓	✓	✓	
4. Submitted the following reports:						
4.A Health Risk Assessment Report	✓		✓	✓	✓	
4.B Health Use Plan	✓	✓	✓	✓	✓	
4.C Report of a follow-up of identified pregnant women (at least 2 follow-ups)	✓	✓	✓	✓	✓	
4.D Birth Plan and referral to health facilities	✓	✓	✓	✓	✓	
No. of Fully-functional CHTs	1	0	1	1	0	
Total No. of Functional CHTs	3
